

Labour Against the War

No to this war

- *Not in our name!*
- *Not in the name of the labour movement!*
- *Not in the name of the trade unions!*

Speakers

Billy Hayes, General Secretary, Communication Workers Union
Alan Simpson MP

**Friday, March 21st, 7.30pm, Comfort
Hotel, George Street**

If Blair co-operates in any way with Bush's war on Iraq it will be an act that is not only reckless and flouts the interests of the people of this country, but also flouts the clear views of the labour movement, both in the Labour Party and the trade unions.

It will be the clearest defiance of any democratic principles of accountability.

Protest against this war. Protest within the Labour Party against co-operation with George Bush. ***Labour Against the War*** demands a recall Labour conference to assert the policies of our movement against war.
